GAS MASK FIT TESTING

PRE-TEST INSTRUCTIONS:

- Ensure you have a cell phone with the ability to scan a QR Code. At the completion of the test, you'll be required to scan a QR Code to collect test results

- Select a mask of your size. If you are unsure of your size, select a MEDIUM

- Clean the mask using the mask cleaning wipes

- Press the green "Press Here" button & follow instructions

Special Note: If you have a Shaving Waiver, please let a Bioenvironmental Engineering Technician know.

POST-TEST INSTRUCTIONS:

PASS

- Scan the QR Code with cell phone within 60 seconds of completion
- Forward results to your UNIT Deployment Manager
- Clean the mask using the mask cleaning wipes and place back where you picked it up

FAIL

- Clean the mask using the mask cleaning wipes and place back where you picked it up
- Please let a Bioenvironmental Engineering Technician know that you failed and need additional support, or follow directions at the kiosk station
